## خلاصه مقاله:

One of the important evidence proving the claims in legal document. The document has been providing various definitions in the sciences and in other words, this concept is considered from the perspective of different sciences. In law as well as the traditional concept of document ins 1284 of the Civil Code defines which means any written document that is referred to as the right or disposal. This concept is true in the case of written documents. But with the development of communication technology and the development of e-commerce transactions and Internet Treaties, the concept stored documents for a new phenomena Evidence was introduced. Special documents to electronic documents in the system is evidence of the important issues of law. Especially with the adoption of .ecommerce law and the position of the law, raising these issues is crucial

## کلمات کلیدی:

Evidence, written, electronic documents, e-commerce, ecommerce law
